

# Join the Together Campaign

For 23 hours a day for months, years, even decades, between 80,000 and 100,000 adults and youth are held in solitary confinement in U.S. prisons, jails and detention centers. **On the 23rd of every month**, the *National Religious Campaign Against Torture* invites you to join people nationwide in monthly actions to call for an end to the torture of solitary. **Together** we will take action on the 23rd at the recommendation of people incarcerated in Pelican Bay prison who led the momentous hunger strikes in California prisons. **Together** we can end the torture of solitary confinement and work for human rights.
