

## August 2020 Estimated Global Nuclear Warhead Inventories

### ***Warheads Held by Major Nuclear Weapons States Recognized by 1970 Non-Proliferation Treaty***

	Russia	US	China	France	UK
Strategic Deployed	1326	1373	320	290	215
Stockpiled	4315	3800	0	0	0
Retired	2060	2000	0	0	0

**Source:** Arms Control Association, 2020 Estimated Global Nuclear Warhead Inventories

**Strategic Deployed:** Warheads on ballistic missiles and at US bomber bases. Numbers based on 2011 New START counting rules which attributes one deployed warhead per deployed heavy bomber no matter how many warheads each bomber actually carries.

**Stockpiled:** Warheads assigned for potential use on military delivery vehicles; includes active and inactive warheads.

**Retired:** Warheads no longer in the stockpile but remain intact as they await dismantlement.

### ***Warheads held by states that are not signatories to the Non-Proliferation Treaty***

- Pakistan: 160
- India: 150
- Israel: 90
- North Korea: approximately 30-40 warheads.
